

## Software Engineer Career Opportunity

Trillium Teamologies is looking for Full-Stack developers that embrace Lean Agile and Extreme Programming practices through proven efforts. Software engineers will work in small, cross-functional teams. They will collaborate directly and continuously with product managers and product designers, and business partners to release early and often.

As a Software Engineer the candidate will be combining the art of design with the art of mobile development and back end programming. They will work with UX and Interaction designers and translate UI/UX design wireframes to actual code that will produce APIs and/or visual elements of applications.

### Technical Skills Requirements

- 7-10 years of Java web development experience
- 2-3 years of cloud platform development and deployment experience (AWS, Azure, Cloud Foundry etc.)
- 5+ years of Spring Framework development experience e.g Spring Boot, Spring Framework, Spring MVC, Spring Data, Spring Security
- 5+ years of Restful web service (API's) development experience
- 3+ years of experience in securing Restful API's using Industry standard protocols
- 5+ years of extensive front end development experience and frameworks including Javascript, HTML5, CSS3, Bootstrap, Angular JS, React JS, jQuery
- 3+ years of agile and iterative development experience
- 2+ years of Test Driven Development and CI/CD deployment experience
- 2+ years of mobile application development (iOS, iPhone)
- 2+ years of paired programming experience
- Knowledge of with experience preferred in Pivotal's suite of projects
- Knowledge of API Managers and Microservices application design
- REST API integration
- 3rd Party Library integration
- Custom User Interface - Visual transitions Core Animation
- Conduct all development work in native programming languages (i.e. Objective-C/Swift for iOS or Java for Android. Ruby/Python/Node.JS are available for custom backend solutions)
- Perform Unit and integration testing on all code as it is developed.

### Other Required Skills

- Strong Communications skills, oral and written communications
- Ability to illustrate and convey ideas and designs effectively with team and partners
- Presence: demonstrating confidence, ability to learn quickly, influence and shaping
